

# PRODUCING THE FUTURE

## Message from the President

Tomoyuki Shigenaga  
President / Chief Executive Officer

Since our founding in 1951, Pacific Consultants has developed into a leading construction consultancy offering services focused on infrastructure engineering.

Our team of over 1,200 registered consultant engineers and other highly specialized, accomplished professionals is committed to providing value to our clients through trusted technologies and services, drawing on knowledge, rich experience, and creativity in a wide range of fields.

With a vision of “Turning the power of technology into hope for the future”, we will use our wealth of engineering expertise to contribute to the sustainable development of society.

## Management Principles

Enhancing our skills and abilities as professional consultants, we continue to provide society with new value through advanced integrated solution services.

## Corporate Governance Charter

The Pacific Consultants Group has adopted the Corporate Governance Charter as the basic policy for the group's governance management.

- Constantly striving to establish and improve corporate governance
- Enhancing corporate value and contributing to society with a long-term perspective
- Ensuring transparency and accountability to shareholders, society, clients, employees, and other stakeholders
- A Board of Directors whose duties contribute to sustainable growth and greater corporate value
- Promoting and communicating thorough compliance
