

Best Case / Best Save in APFSRM2020

COMPETITION

The microsurgery performed by the member of APFSRM must be unique and creative, and the level of the microsurgeries could be the highest among all over the world. However, those unique cases often tend to be one-of-a-kind and therefore not well suited for public dissemination or publication.

At APFSRM2020, we will be addressing this situation by presenting two awards for excellence in microsurgery and complex reconstruction as in American Society for Reconstructive Microsurgery annual meeting. One award will focus on microsurgical salvage from a complication (self-created or other), the other on the best microsurgical case. By offering these awards, we hope to showcase some of the incredible talent and innovation that APFSRM members possess and utilize on a daily basis. We encourage all APFSRM members to submit a recent case for consideration.

SUBMIT HERE

Cases will be chosen for presentation by the Program Committee of APFSRM2020. Three or four presenters will be chosen for a candidate of each Best Case or Best Save. Allocated time for each presenter will be approximately 10 to 15 minutes. All presenters should have a good sense of humor as the competition is meant to entertain the audience. To make presentation more dramatic and impressive, using movies and audios are preferred. Cases will be discussed by an expert panel from Japan, Korea, China, and India, and voted upon by the all audiences including panel.

It is going to be great opportunity and memory to share your wonderful experience to all the members!
