

# Educational Exhibition Programs

## Neuroradiology

- REE001** Usefulness of APT CEST Imaging for Various Intracranial Brain Tumors and Tumorlike Lesions  
Hirofumi Koike / Dept. of Radiology, Nagasaki Univ.
- REE002** Non-brain Lesions on Brain Magnetic Resonance Imaging for "Metastatic Brain Tumor Screening"  
Mio Sakai / Dept. of Radiology, OICI.
- REE003** MR Imaging of Neoplastic and Non-neoplastic Lesions Involving the Clivus  
Ayako Mikoshi / Dept. of Radiology, NDMC

## Head and Neck

- REE004** Normal Variants and Benign and Malignant Lesions of the Clivus Associated with Notochordal Remnants  
Hiroyuki Fujii / Dept. of Radiology, Jichi Medical Univ.
- REE005** Malignant Tumors of Olfactory Cleft and Ethmoid Sinus: A Pictorial Review  
Fumi Sasaki / Dept. of Diagnostic Radiology, Japanese Red Cross Wakayama Medical Center

## Chest

- REE006** Endobronchial Tumors  
Jinho Park / Dept. of Radiology, Tokyo Medical Univ.
- REE007** CT Findings of COVID-19 Pneumonia  
Kiyomi Furuya / Dept. of Radiology, Kyushu Medical Center
- REE008** Usefulness of Bone Suppression and Temporal Subtraction Processing for Chest X-ray Images in Clinical Practice  
Seiji Shiotani / Dept. of Radiology, Seirei Fuji Hosp.
- REE009** Imaging Features of Pulmonary Mycobacterial Infection: Tuberculosis and Nontuberculous Mycobacteriosis  
Aya Yamada / Dept. of Radiology, Nara Med. Univ.

## Cardiovascular

- REE010** Volumetry of Coronary Calcification on Non-ECG-Triggered Chest CT with Commercially Available Deep Learning Artificial Intelligence  
Sachika Watanabe / Dept. of Diagnostic Imaging, Kyoto Katsura Hosp.
- REE011** Morphological Approach to the Ventricle in Congenital Heart Disease: Imaging Review  
Yohei Marukawa / Dept. of Radiology, Okayama Univ.
- REE012** Current Update of 4D Flow MRI Evaluation for Thoracic Artery  
Tetsuro Sekine / Dept. of Radiology, NMS Musashi-Kosugi Hosp.

## Hepatobiliary/Pancreas

- REE013** Common and Uncommon Anatomic Variations of the Celiac Artery and the Proximal Superior Mesenteric Artery: Diagnostic Clue in Conventional CT  
Mao Konishiike / Dept. of Diagnostic Radiology, Saitama Med. Univ. Int'l Med. Ctr.
- REE014** Pictorial Review of Diffuse Pancreas Lesions  
Shigeaki Umeoka / Dept. of Diag. Radiology, JRC Wakayama MC

## Gastrointestinal

- REE015** Imaging of Small Bowel Tumors: What Radiologists Should Know  
Kiyoka Maeba / Dept. of Radiology, Kawasaki Sch.
- REE016** Imaging Findings of Metastatic Gastric Tumor, Especially for Needle Tract Seeding Following Endoscopic Ultrasound-Guided Fine Needle Aspiration for Pancreatic Cancer  
Rika Yoshida / Dept. of Radiology, Shimane Univ.
- REE017** Gastrointestinal Disease Radiologist Should Know about: Focusing on Double-Contrast Barium Study  
Takahiro Itoh / Dept. of Diagnostic Radiology and Interventional Radiology, Nara Medical Univ.
- REE018** The Usefulness of Dual-CT before Surgery for Esophageal Cancer  
Xuyang Sun / Dept. of Radiology, Tokai Univ.
- REE019** Review of Multimodality Imaging in Small Bowel Tumors: A Review of Old and New Techniques  
Takayoshi Shinya / Dept. of Radiology, Tokushima Univ.
- REE020** Magnetic Resonance Enterography for Crohn's Disease: A Review and Practical Tips for Clinical Use  
Yoshio Kitazume / Dept. of Radiology, TMDU
- REE021** Creation of Educational Content for Radiological Diagnosis of Rectal Cancer using Synthetic MR Images  
Mototaka Miyake / Dept. of Radiology, NCCH

## Uroradiology

- REE022** Comprehensive Reviews of the Interfascial Plane of the Retroperitoneum: Visualization by Hydrodissection Method During Cryotherapy of Renal Cell Carcinoma  
Kaori Yamada / Dept. of Diagnostic Radiology, JRC Kyoto Daiichi Hosp.
- REE023** Imaging and Clinical Findings of Retrocaval Ureter  
Tamaki Ichikawa / Dept. of Radiology, Tokai Univ.
- REE024** Diagnostic Imaging of Complications Associated with Cancer Treatment for the Genitourinary System ; A Pictorial Review  
Hiroki Sakurada / Dept. of Diagnostic Radiology, Japanese Red Cross Wakayama Medical Center

---

**REE025** The Review of Our Experience of MRI-Targeted Prostate Biopsy  
Emi Nishimura / *Dept. of Radiation Oncology, Showa Univ. Koto Toyosu Hosp.*

---

### Obsterics/Gynecology

---

**REE026** A Comprehensive Review of Diagnostic and Therapeutic Strategy for Serous Tumors in the Female Pelvis  
Mayumi Takeuchi / *Dept. of Radiology, Tokushima Univ.*

**REE027** The Review of the CT and MRI Findings of the Ovarian Clear Cell Carcinoma  
Nobukata Kazawa / *Dept. of Radiology, KMU*

**REE028** Mysterious Images of Ovarian Teratoma  
Hisatoshi Araki / *Dept. of Radiology, Shimane Univ.*

**REE029** MR Imaging of Cystic Lesions in the Uterus: What is the Differential Diagnosis?  
Eri Hoshino / *Dept. of Radiology, Saitama Univ.*

---

### Musculoskeletal

---

**REE030** MRI of the Shoulder using Compressed SENCE MultiVane Acquisition Method  
Shinji Saruya / *Dept. of Radiology, Saitama Univ.*

---

### Pediatric

---

**REE031** The Thymus in Childhood  
Shigeiko Kuwashima / *Dept of Radiology, Dokkyo Univ.*

**REE032** Alexander Disease in Twins: Typical Findings on Serial MRI  
Ryota Nakano / *Dept. of Diagnostic and Interventional Radiology, Nara Medical Univ.*

---

### Whole Body

---

**REE033** A Pictorial Review of Diseases with Diffuse Osteosclerosis that Could be Accurately Diagnosed Based on the Characteristic Clinical Findings  
Marina Shimizu / *Dept. of Radiology, Japanese Red Cross Wakayama Medical Center*

**REE034** Imaging of Abdominal Wall  
Naofumi Watanabe / *Dept. of Radiology, Asahikawa Univ.*

---

### Nuclear Medicine

---

**REE035** FDG PET CT Search for Culprit Lesions Causing Elevated Tumor Marker of CEA  
Kazuyoshi Suga / *Dept. of Radiology, St. Hill Hosp.*

**REE036** Relationship between Pulmonary Perfusion and Morphologic Abnormalities: Assessment with SPECT-CT Fusion Images  
Kazuyoshi Suga / *Dept. of Radiology, St. Hill Hosp.*

**REE037** Physiological Accumulation of FDG Revisited - Unsolved Case Files  
Koya Nakatani / *Dept. Diagnostic Radiology, Kurashiki Central Hosp.*

**REE038** FDG-PET Findings Associated with Various Medical Procedures and Treatments  
Chio Okuyama / *Div. of PET Imaging, Shiga Medical Center Res. Ins.*

---

### Radiation Oncology

---

**REE039** Safety and Efficacy of the Combination of Immune Checkpoint Inhibitor and Radiotherapy  
Yusuke Ito / *Dept. of Radiation Oncology, Fukushima Medical Univ.*

---

### Interventional Radiology

---

**REE040** Complications of Percutaneous Cryoablation for Renal Tumors: Is This Therapy Safe?  
Toshihiro Iguchi / *Dept. of Radiologic Tech, Okayama Univ.*

**REE041** Radiological Anatomical Considerations to Prevent Misplacement of Inferior Vena Cava Filter  
Hiroshi Anai / *Dept. of Radiology, Nara City Hosp.*

**REE042** The Subclavian Artery and Its Branches: Normal Anatomy, Variations, and Related Pathologies on CT and DSA  
Atsuo Inoue / *Dept. of Radiology, Yamaguchi Univ.*

---

### Miscellaneous

---

**REE043** IgG4-related Disease Scoring System: From 2020 Revised Comprehensive Diagnostic Criteria (RCDC)  
Hainan Ren / *Dept. of Radiology, Tohoku Univ.*

**REE044** Cancer of Unknown Primary at Initial Diagnosis: Revisit in Line with NCCN Guidelines  
Motoaki Sato / *Dept. of Radiology, Kamagaya GH*

**REE045** Standardization of Strategies for the Prevention of Post-Contrast Acute Kidney Injury by Contrast-Enhanced CT: Active Conduct by Radiologists is Now Required  
Narumi Hayashi / *Dept. of Radiology, Kumamoto Univ.*

**REE046** A Fail-Safe System for SUF Errors in Radiological Reports (SUFERR): Achievements and Challenges  
Ryotaro Kamei / *Dept. of Radiology, Kyushu Medical Center*

**REE047** Development of Japan Medical Image Database for Safe Radiology and Utilities of Its Content Data  
Toshiaki Akashi / *Dept. of Radiology, Juntendo Univ.*
